  Lakes Institute of
  Management.

From May 2018, Tapan has ventured into his own
startup named "ISF Analytica & Informatica Pvt. Ltd."
a Fintech based company looking into building sector
agnostic products and solutions in the space of
Transaction Management, Knowledge Management,
Security Management & Communication
Management. Some of the products developed by ISF
are EasyLearn, MentorBox, PitchDeck, ISF Exchange,
EasyComm & Fortimates.

EasyLearn is the next generation e-learning platform
to provide an integrated digital experience for schools
and colleges. It has been designed keeping in mind the
ease of use, manoeuvrability to support large data and
a highly secure platform.

EasyLearn is protected by a Secure Login which makes
sure your data is only shared with people authorized
by the admin and allows students to get trained in a
classroom or as a learning group.
